

# FAMILY WORSHIP

## SIMPLE GUIDE TO FAMILY WORSHIP

---

Family worship is the most important practice that a family can do to help their children learn consistent truth about God. This guide is a simple way to understand family worship, and hopefully a tool for families to simplify and make consistent effort to share Christ at home.

Choose a time and a location for regular family worship. It could be dinner time at the table or morning time in the office. The point is to choose and protect that time.

Prayer must be a part of family worship. If we are to teach our children of a God who has promised to listen to our prayers, then we must pray.

Choose a book of scripture to walk through as a family. Read short portions of that book at each session. Not too long, not too short. Just read together.

Singing songs of worship are a great way to show the value of God to the family. Singing of God's glory does wonders to help families grow together to love Jesus.

Spend time discussing the passage that was read. With young children ask pointed questions. With older kids ask questions that lead to discussion.

Tips

- 1) Consistency is key.
  - 2) Be willing to try, fail, and try again
  - 3) Personal worship must not be neglected. Authenticity is also key.
